SUMMARY

Motivated Full Stack Web Developer with a strong foundation in Computer Science and Engineering – Artificial Intelligence. Passionate about building dynamic and responsive web applications using the MERN stack (MongoDB, Express.js, React, and Node.js). Proficient in both front-end and back-end development, with hands-on experience in designing scalable, efficient solutions. Solid understanding of Data Structures and Algorithms, with a keen focus on performance optimization and clean code. Actively enhancing skills through real-world projects and continuous learning.

EXPERIENCE

Full Stack Developer -INTERN

Orion Express Logistics Pvt. Ltd. Pune

06/2024 – 12/2024 [Mangalwar Peth, Pune , Maharashtra](#)

Full Stack Developer Intern

- Developed and maintain ERP Web-Application using MERN stack.
- Collaborated with senior developers to design and implements REST API's and dynamic user interfaces.
- Contribute to bug fixes, UI enhancement , and backend improvement to improve application interface.

Full Stack Developer -INTERN

Felix IT System Pune

09/2023 – 05/2024 [Kotharud, Pune , Maharashtra](#)

Full Stack Developer Intern

- Learned and implemented the MERN stack by developing dynamic education portal to manage student information and inquiries.
- Improve application performance and user experience through continuous UI enhancement .backend optimizations, and bug fixes

EDUCATION

Bachelor of Technology in Computer Science and Engineering – Artificial Intelligence

PCET's Nutan College of Engineering and Research, Talegaon Dabhade

09/2024 – Present [Talegaon Dhabhade, Pune, Maharashtra.](#)

CGPA: --

Full Stack Development Course

Felix IT's System , Pune

09/2023 – 05/2024 [Kotharud, Pune, Maharashtra](#)

Diploma in Computer Engineering

Government Polytechnic Jalgaon

12/2020 – 07/2023 [Jalgaon, Maharashtra](#)

Percentage: 78%

PROJECTS

Portfolio

This is a web application designed to showcase my personal development, technical skills, certifications, and project accomplishments in a clean and professional layout. Built using React for a dynamic and responsive user interface, the platform highlights both frontend and backend expertise.

Tech Used: HTML, CSS, JavaScript, React.

[Charudatta | Portfolio](#)

E-Learning Platform

Developed a full-stack web application inspired by platforms like **Uday**, featuring separate portals for students and admins. The student portal allows learners to access educational content, track their progress, and interact with learning modules, while the admin panel enables efficient content management and user monitoring. The platform promotes self-paced learning and efficient administration through a clean, intuitive interface. Built with the MERN stack to ensure seamless performance, scalability, and real-time data management.

Tech Used: MERN Stack

[Digi Learn - CS](#)

ShopSphere

Developed a dynamic and user-friendly e-commerce platform enabling seamless product browsing, cart management, and secure checkout. Implemented front-end using React with Redux for efficient state management and Bootstrap for responsive UI design. Deployed on Firebase for optimized hosting and real-time performance.

Tech Used: ReactJS, Redux, Ajax

[ShopSphere](#)

SKILLS

Front-end Tech: HTML5, CSS3, JS, React.

Back-end Tech: NodeJS, ExpressJS

Database: MongoDB.

Frameworks: Ajax, Bootstrap, Tailwind CSS

Tool : Visual Studio, Postman

Additional Skills: DSA, Latex Documentary

Deployment: Firebase, Hostinger, Vercel

CERTIFICATIONS

- MERN Stack – ([view certificate](#))
